SKILLS

Frontend & UI/UX: React, React Native, Javascript, HTML5, CSS3, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, REST APIs, JWT
Languages: Java, C++, JavaScript
Tools/Platform: Git, GitHub, VS Code, Linux/Ubuntu, MySQL, MongoDB, PostgreSQL
Soft Skills: Problem-Solving, Team Collaboration, Adaptability, Leadership

PROJECTS

NearBitez - Food Delivery Platform

MERN Stack + React Native (MongoDB, Express.js, React, React Native, Node.js) | [Github](#) Jan' 26-Mar' 26

- Built a full-stack food delivery platform (**React, React Native**, Node.js, Express, MongoDB), covering vendor discovery, cart management, and checkout across web and mobile.
- Crafted a **responsive, Tailwind CSS-based UI/UX** with optimized Axios-driven API communication, ensuring consistent performance and design across the web and **React Native** clients.
- Secured application routes and APIs using **JWT-based authentication with role-based access** (User/Restaurant), ensuring controlled data flow and scalable backend architecture.

ExpenseMerge

MERN(MongoDB, Express.js, React.js, Node.js) | [Github](#) Jan' 26-Feb' 26

- Developed ExpenseMerge, a scalable full-stack finance app combining group expense splitting and personal finance management.
- Implemented **RBAC, secure authentication (JWT, OAuth2/OIDC)**, RESTful APIs, and Razorpay-based subscriptions with webhook-driven reliability.
- Designed a modular architecture with independent frontend/backend deployments and performance optimizations like server-side pagination.

Startup-Corporate Collaboration Platform

Nov' 25-Jan' 26

MERN(MongoDB, Express.js, React.js, Node.js) | [Github](#)

- Developed a full-stack **MERN web application** to connect startups and corporates through a centralized platform supporting role-specific dashboards and collaboration workflows.
- Implemented **JWT-based authentication** and **role-based access** control using Express middleware to secure APIs and protect sensitive user data.
- Architected scalable **REST APIs** with structured MongoDB schemas and integrated frontend-backend communication using **Axios**.

TRAINING

Cipher Schools (Edtech Company) | [Link](#)

Jul' 25

Full Stack Development using MERN Stack

- Completed a structured Full Stack Development (MERN) program covering REST APIs, authentication, CRUD operations, state management, and responsive UI building.
- Applied concepts through hands-on project work, strengthening full-stack development and problem-solving skills.

CERTIFICATES

Frontend Developer(React)| [HackerRank](#)

Apr' 26

Git and Github | [CipherSchools](#)

Nov' 25

ACHIEVEMENTS

The Big Code — Google

Apr' 26

- Advanced to Round 2, ranking among the top 1,500 participants out of an initial pool of 15,000+ qualifiers in a multi-stage elimination coding challenge testing algorithmic problem-solving and core CS fundamentals.

EDUCATION

Lovely Professional University

Phagwara, Punjab

Bachelor of Technology

Aug' 23 – Present

Computer Science and Engineering; CGPA: 8.2

Nalanda Junior College

Bhadradi Kothagudem, Telangana

Intermediate

Mar' 21 – May' 22

PCM; Percentage: 96.4%

Triveni Talent School

Bhadradi Kothagudem, Telangana

Matriculation

Mar' 19 – May' 20

CGPA: 10.0
